About The Hospice of St Francis

The Hospice of St Francis provides special care for people with terminal illness in West Hertfordshire and the Chiltern area of Buckinghamshire. We provide a free service that gives total care to patients and their families and friends, including in-patient beds, community nurses, a day care hospice and family support services.

It costs over £3m to run our hospice services each year. We receive just 25% of this from the government - for the rest, we are dependent on the goodwill of our local community.

This means we have to raise £6,000 each day to run our important services.

Thank you for supporting The Hospice of St Francis
